Re: Ordinance 16-17 – Regulation of Medical Marijuana

The following describes in detail the above referenced agenda item:

As discussed at the August Village Council Workshop, the above referenced ordinance proposes to regulate medical marijuana uses within the Village pursuant to the permissions and preemptions provided in state law. While “medical marijuana treatment centers” (the so-called farm-to-table operations) are allowed in the C-3 zone under certain circumstances based on state law regulatory preemptions, “dispensing facilities” (retail pharmacy-like uses) are prohibited Village-wide based on state law regulatory permissions.
