Village of Tequesta
Water Utilities Fees and Charges

1. Monthly Water Service Charges

- A. **Residential and Non-Residential Rate Schedule – Base Facilities Charges** - The Base Facilities Charge is the minimum monthly charge and is based on meter size and monthly billing period as follows:

	Base Facilities Charge Table		
	Effective October 1, 2017	Effective October 1, 2017	Effective October 1, 2018
Meter Size:			
5/8” or 3/4”	\$17.01	\$18.37	\$19.10
1”	\$42.45	\$45.85	\$47.68
1.5”	\$85.10	\$91.91	\$95.59
2”	\$135.89	\$146.76	\$152.63
3”	\$254.79	\$275.17	\$286.18
4”	\$424.61	\$458.58	\$476.92
6”	\$849.25	\$917.19	\$953.88

- B. **Metering of Multi-family Buildings (M.F.)** – Where a single meter is installed in a water connection serving a multi-family structure, the minimum monthly service charge shall be the greater of i) an amount equal to the number of dwelling units multiplied by the minimum charge for a 5/8 inch meter, or ii) the base facilities charge for the installed meter size.

In the event there is a single meter measuring quantities of water for two (2) or more residential units, the gallons measured and charged pursuant to the terms of this section shall be prorated by dividing the total number of gallons metered by the number of units included on the single meter.

- C. **Metering of Multi-Unit Buildings – Non-Residential** – In the case of any non-residential multi-unit building housing more than one (1) business or entity, each business or entity therein shall be metered individually. Monthly minimum service charges shall be based on the established charge by meter size. Where an existing single meter is installed in a water connection serving two (2) or more businesses or entities, the minimum monthly service charge shall also be based on the established charge by meter size. Fire protection charges for fire lines shall be separately included; see paragraph number 2 herein below.

- D. **Quantity Rate Charges for Residential and Non-Residential Rate Schedule** – Applicable to all quantities of water shown by meter readings to have been delivered as follows:

11. **Water Restriction Surcharge Adjustment** – See Section 74-74., Village Code of Ordinances.

12. **Excessive Variance Step Adjustment** – The Village Manager may approve an excessive usage credit (EUC) to a water bill, which, due to circumstances beyond the customer's control (e.g. leaks on the customer's side of the meter), reflects consumption in an amount that is at least two times the customer's average monthly usage over the previous three (3) month period No customer shall be eligible for such an adjustment more than once per three (3) calendar year period. No such adjustment shall be granted in the event that the adjustment would cause a violation of Village Code Section 74-78 regarding prohibited free service, or Village Code Section 74-81 regarding the provision of adequate revenue to cover all costs of operation, maintenance and debt service. Any downward adjustment shall be made based on the Village's then current step rates. The lowest step rate that results in an adjusted water bill commensurate with the customer's average water bill over the previous three (3) months of billing shall be applied. In the event that application of the lowest step rate results in an adjustment that continues to exceed an amount that is

double the customer's average water bill over the previous three (3) months of billing, then an adjustment equal to an amount equivalent to double the customer's average water bill over the previous three (3) months of billing shall be made. The Village Manager shall determine that the customer meets each of the following criteria prior to approving any EUC:

- Customer notifies the Village of Tequesta's Customer Service Department of an excessive water bill that may be related to a leak or other circumstance beyond the customer's control.
- Water consumption exceeds two times the customer's average monthly usage over the previous three (3) month period.
- Customer acted promptly to remediate excessive water use (e.g. had leak on Customer's side of the meter repaired as soon as practicable) as documented by repair receipts or other acceptable methods.
- The request for EUC was made within 1 month of the remedial action.

No EUC may be approved where any of the following circumstances exist:

- Excessive consumption is due to seasonal usage such as watering of sod, gardening, or usage from filling swimming pools and hot tubs/whirlpools, or washing vehicles, etc.
- A leak resulting in excessive consumption was caused by a third party from whom the customer is able to recover their costs. Examples include, but are not limited to, theft, vandalism, negligence and construction damage, including unoccupied or vacant properties.
- When excessive consumption continues for two (2) or more months, there will be no adjustment for the second or subsequent months.
- The meter has been accessed, tampered with, or turned on/off by anyone other than a Village of Tequesta Utility employee and that action results in excessive consumption.
- The EUC would violate Village Code Sections 74-78 or 74-81.
- An EUC was approved within the past three (3) calendar years at the same property.

Notwithstanding the above provisions of this Excessive Variance Step Adjustment policy, the Village Manager may, from time to time, allow for step adjustments in excess of once per three (3) calendar years at the same property when extenuating circumstances exist that warrant the granting of relief. All such requests shall be reviewed on a case-by-case basis. Any relief granted by the Village Manager pursuant to this provision shall be limited to One Hundred Dollars (\$100.00) per award.

13. **Miscellaneous Fees and Charges**
