Re:

Property & Casualty Insurance Renewals 2018/19

The Village's property and casualty insurance experienced an 18.45% increase for FY2018/19 due mostly to our Workers Compensation (WC) experience which represents 84% of the total increase. The 2018/19 Experience Mod Factor increased to 1.29 over 2017/18's rate of 1.24 and 2016/17's rate of 1.04 for a number of reasons. Firstly, the Village has experienced an uptick in injuries covered under the State's "Heart & Lung" bill, which automatically presumes on-the-job occurrence. Other contributory factors include the rise in total payroll resulting from salary increases, increase in headcount over the past 2 years and increases in the WC rates for all employee class codes with the exception of clerical/office workers. Specifically, the WC market has seen a rate increase to the first responder's class codes in anticipation of the start of the new PTSD legislation that takes effect on 10/01/2018. Our Brokers have been invited to give a very brief summary of this legislation and our recent claims history.

Attached is the 2018/19 FMIT evaluation numbers that propose a total annual renewal premium of \$509,388 (inclusive of brokers' fees). This represents an increase of \$79,351 over the expiring premium of \$430,037. An additional \$5,000 is being requested to cover one deductible payment in respect of open liability claims, and to pay for a Village-wide property appraisal, making a total request of **\$514,388**.

We opted not to shop the market again this year due to our poor WC experience, which we expect to start improving with the current fiscal year. The HR department therefore recommends that the Village renew the 2018/19 insurance Property & Casualty Insurance with the Florida Municipal Insurance Trust.
