

Memorandum

To: Honorable Mayor and Village Council

Thru: James M. Weinand, Acting Village Manager

From: James Trube, Fire Chief 

Date: January 18, 2019

Subject: Acceptance of Interlocal Agreement For Purchase of EMS Equipment

The attached agenda item addresses the need for the acceptance of the Interlocal Agreement for the Use of EMS Grant Funds for Emergency Medical Services Equipment in order to purchase an additional Lucas Device.

The Lucas Device is an automated chest compression system and critical component for administering CPR and saving lives. We currently have one device on Rescue 85, and one on our backup Rescue 285. Getting a third device will enable one being placed on Engine 85, for Advanced Life Support.

The total cost of this item is approximately \$17,192.00 which will be covered entirely and reimbursed by the Grant Funds.

On behalf of the Village Manager and staff, this agenda item is submitted for your review and consideration. Your approval will authorize the Village Manager to execute any agreements and authorize the purchase of this item.
